

## Questionnaire in respect of Erection or Dismantling of Machinery

Name of Proposed Insured

Intermediary Name:

### 1. Industry Classification

- |                                             |                                               |
|---------------------------------------------|-----------------------------------------------|
| <input type="checkbox"/> Public Utility     | <input type="checkbox"/> Mining               |
| <input type="checkbox"/> Chemical           | <input type="checkbox"/> Manufacturing        |
| <input type="checkbox"/> Building           | <input type="checkbox"/> Timber/ Wood         |
| <input type="checkbox"/> Textiles           | <input type="checkbox"/> Pulp/ Paper          |
| <input type="checkbox"/> Plastics/ Rubber   | <input type="checkbox"/> Printing/ Stationary |
| <input type="checkbox"/> Leather            | <input type="checkbox"/> Transportation       |
| <input type="checkbox"/> Farming/           | <input type="checkbox"/> Storage              |
| <input type="checkbox"/> Agricultural/ Food | <input type="checkbox"/> Other, describe      |

|  |
|--|
|  |
|--|

### 2. Brief outline of the Contract

|  |
|--|
|  |
|  |
|  |
|  |
|  |
|  |
|  |

- This is a "green field project"; or
- This is an extension/ alteration of an existing plant

### 3. If an extension/ alteration to an existing plant:

- The existing plant will continue to work during the construction/ erection/ testing period
- Give a specific description of "tie ins" and common systems to be used for the existing plant, as well as for the extension/ alteration

|  |
|--|
|  |
|--|

### 4. Contract Information

The Contract includes construction/erection of the following parts:

- Foundations
- Surrounding Structures/ Buildings
- Design of Machinery
- Manufacturing of Machinery
- Transportation of Machinery
- Off-Site Manufacturing of Machinery
- Installation of Machinery
- Testing and Commissioning of Machinery
- Dismantling of Machinery
- Reconditioning of Machinery

### 5. Major Machinery

Give a description of the three most valuable items to be erected or dismantled

#### Item 1

|                        |  |
|------------------------|--|
| Type                   |  |
| Manufacturer           |  |
| Model                  |  |
| Country of Manufacture |  |
| Capacity               |  |
| Size                   |  |
| Weight                 |  |
| New Replacement Value  |  |

#### Item 2

|                        |  |
|------------------------|--|
| Type                   |  |
| Manufacturer           |  |
| Model                  |  |
| Country of Manufacture |  |
| Capacity               |  |
| Size                   |  |
| Weight                 |  |
| New Replacement Value  |  |

#### Item 3

|                        |  |
|------------------------|--|
| Type                   |  |
| Manufacturer           |  |
| Model                  |  |
| Country of Manufacture |  |
| Capacity               |  |
| Size                   |  |
| Weight                 |  |
| New Replacement Value  |  |

### 6. Machinery/ Application

The Machinery can be regarded as

- Conventional  Prototype  Experimental

The Application can be regarded as

- Conventional  Prototype  Experimental

If any of the Machinery/ Application can be regarded as Prototype/ Experimental, give details

|  |
|--|
|  |
|--|

### 7. Erection of Machinery

- Cranes are required for erection
- Dual lifts are also required. If so, give details

|  |
|--|
|  |
|--|
