

Questionnaire in respect of Sub-Division of Land

Name of Proposed Insured

Intermediary Name:

1. Brief outline of the Contract

This Contract includes the following scope:

<input type="checkbox"/> Land Clearing	<input type="checkbox"/> Cutting and filling
<input type="checkbox"/> Retaining walls	<input type="checkbox"/> Fencing
<input type="checkbox"/> Stormwater	<input type="checkbox"/> Drainage
<input type="checkbox"/> Water reticulation	<input type="checkbox"/> Sewerage pipe work
<input type="checkbox"/> Electrical reticulation	<input type="checkbox"/> Road construction
<input type="checkbox"/> Kerbing and guttering	<input type="checkbox"/> Road paving
<input type="checkbox"/> Street lighting	<input type="checkbox"/> Turfing
<input type="checkbox"/> Planting of trees or scrub	<input type="checkbox"/> Other, describe

2. Site characteristics

The site can best be described as:

<input type="checkbox"/> Open area	<input type="checkbox"/> Semi built up area
<input type="checkbox"/> Built up area	<input type="checkbox"/> Mountainous terrain
<input type="checkbox"/> Hilly terrain	<input type="checkbox"/> Undulating terrain
<input type="checkbox"/> Flat terrain	<input type="checkbox"/> Dry land
<input type="checkbox"/> Marshy land	<input type="checkbox"/> Land subject to flooding

Distance from neighbouring structures

Distance from nearest river/ creek

3. Subsoil information

Give information on subsoil including geo-technical investigations carried out to date

4. Cutting, filling and retaining walls

Does the Contract require any cutting, filling or retaining walls to be carried out?. If so, give details

5. Water, drainage, sewerage, electricity

Give information on any water, drainage, sewerage or electricity work to be carried out as part of your Contract

Depth of trenching for pipes and services m

Maximum length of open trench m

What method will be used for shoring of the trench

Length and diameter to be used for piping:

Steel	<input type="text"/>
Cast iron	<input type="text"/>
Plastic	<input type="text"/>
Precast concrete	<input type="text"/>
Clay	<input type="text"/>
Other	<input type="text"/>

Pipe joining techniques:

Welding	<input type="checkbox"/>	Bolted couplings	<input type="checkbox"/>
Rubber rings	<input type="checkbox"/>	Glued	<input type="checkbox"/>
Other, describe	<input type="text"/>		

Electrical reticulation is for:

Power Data/ information

and is: overhead underground

Pipes and services will cross through or under:

Roads;

Railways;

Waterways; If any of these, give description

6. Roads

Is any roadwork forming part of your Contract? If so, give

Total length km's Maximum width m

Batters for cuts (Vertical : Horizontal) :

Batters for fills (Vertical : Horizontal) :

Road surfaces:

<input type="checkbox"/> Gravel	<input type="checkbox"/> Asphalt
<input type="checkbox"/> Concrete	<input type="checkbox"/> Brick paving

Support needed (retaining walls, rock anchors, etc)

7. Water features

If the Contract involves development of:

- A river or creek; Canals or channels;
 Dams; Ornamental Waters;

Give dimensions in respect of:

Length m Width m Depth m

If excavation is needed:

- In dry ground;
 In wet ground;
 Using dredging methods; Give details

Are revetments forming part of this Contract

Yes No

If yes, what type?

Dimensions (l x h in metres)

- | | |
|--------------------------------------------------|---------------------------------------------|
| <input type="checkbox"/> Rock facing | <input type="text"/> x <input type="text"/> |
| <input type="checkbox"/> Block retaining wall | <input type="text"/> x <input type="text"/> |
| <input type="checkbox"/> Sheet piling | <input type="text"/> x <input type="text"/> |
| <input type="checkbox"/> Concrete cast insitu | <input type="text"/> x <input type="text"/> |
| <input type="checkbox"/> Precast concrete panels | <input type="text"/> x <input type="text"/> |
| <input type="checkbox"/> Geomembrane fabric | <input type="text"/> x <input type="text"/> |

Type of fabric

Gradient (vertical : horizontal) :

- Other, describe
- | |
|--|
| |
| |
| |

What is expected to be the maximum length of incomplete revetments at any on time m

8. Water control

How far below ground level is ground water m

Will dewatering be required? Yes No

If so, how many active pumps are required

How many stand-by pumps are required?

Describe electricity supply including emergency procedures

9. Turfing

If the Contract involves turfing, advice:

Type

Area m²

- New seed Pre-grown

10. Trees and other plants

If the contract involves plantation of trees or other plants, give details in respect of:

Type

Number of

Where to be planted

--

If any trees or plants to be relocated, give details

11. Blasting

Will blasting be required? Yes No

If so, give additional information

12. Testing and Commissioning

If testing and commissioning of electrical or mechanical systems forms part of this Contract, give details of:

Systems

Length of testing days

13. Schedules and Costs

Give a breakdown of time and costs allocated for the following portions of work

Portion	From/ To	Cost \$
Excavation	/	
Services	/	
Testing	/	
Roads	/	
Turfing	/	
Planting	/	
Other	/	
Total	/	

14. Sub-Contractors

Sub-contractors will undertake the following portions of Work

Attach additional information such as drawings, sketches, schedules, specifications, breakdown of values and volumes to give us a better appreciation of the Contract
